### Time-Saving Calendar

Posted 12/3/2007 11:21 AM CST

Come 2008, give your old calendar the boot and upgrade to the WeekDate calendar. It'll make your life easier, since any recurring appointments and to-dos only need to be written once. The calendar's tri-fold design means monthly priorities are written on the top flap, weekly tasks are recorded on the bottom flap, and everyday events are written in between. So instead of writing "pay mortgage" on the 10th of every month over and over again, write it once and you're done!
