SheFindsMom Get Organized Week: WeekDate Planner

Category:

What: **Weekdate Calendar**

Why: The originator of this handy calendar, Kay Odell, is a great example of having a brainstorm and realizing its potential. Unhappy with her pocket calendar, she knew there had to be a way to keep tabs on weekly, monthly and, especially, recurring events without having to spend hours scribbling the same things into her pocket daytimer.

So she invented Weekdate, an all-in-one calendar that, while not small enough to fit into your pocket per se, fits perfectly into your purse and puts all events literally on one page. With Monthly events on top, weekly events on the bottom and a day-by-day page calendar in the middle, she's even added scribble space for little extras, like that day's grocery list or Do Not Forgets.

You have to see it to really get how it works, or go online and you can view all of the features. This unique calendar is a GREAT way to kick off the year and be ahead of the game, at least for a while, anyway. Cute cover art, too, so you can make WeekDate your own!

Price: \$24.95
